

## **Weather and Dress Code**

Hong Kong's location on the south coast of China dictates a humid subtropical climate. Summer is usually hot and humid with occasional rain and squally thunderstorms. Accurate day-by-day forecasts of the weather in Hong Kong are also available at the [Hong Kong Observatory Government website](#).

All delegates are advised to bring umbrellas and sunscreen for the GLS half-day evening excursion and independently organized sight-seeing trips. Delegates can also purchase these items in shops such as Mannings, Wellcome and PARK n SHOP which are conveniently located throughout Hong Kong.

During the conference, delegates should wear smart casual: dress trouser and shirt with tie (optional) for boys and skirt and blouse or dress for girls. School uniform is not required and no jeans please. Note that students can wear more casual attire on Wednesday 3rd July as we will be attending a social dinner and an outdoor Laser Show in the evening.
